MongoDB

```
use mongo

switched to db mongo

db.product.insertMany([{_id:1, "item": "chisel",  "code": "C001",  "quantity": 4, "instock":true},

{_id:2, "item": "hammer",  "code": "unknown", "quantity": 3,  "instock": true},

{_id:3, "item": "nails",  "code":"unknown",  "quantity": 100,  "instock": true }])

db.product.find()

db.collection.updateOne({code:"unknown"},{$unset:{instock:"",quantity:""}})

db.product.find()

db.collection.updateMany({code:"unknown"},{$unset:{instock:"",quantity:""}})

db.product.find()
```
